PUBLIC SCHOOL RATINGS

2026 Public School Ratings as of September 2026.

oldrepublictitle.com/DFW

Texas Education Agency Accountability Rating System

Districts and Campuses receive an overall rating, as well as a rating for each domain.

A, B, C, or D: Assigned for overall performance and for performance in each domain to districts and campuses (including those evaluated under alternative education accountability [AEA]) that meet the performance target for the letter grade.

F: Assigned for overall performance and for performance in each domain to districts and campuses (including AEAs) that do not meet the performance target to earn at least a D.

N/R: Assigned to districts that—under certain, specific circumstances—do not receive a rating.

NOTE: Single-campus districts must meet the performance targets required for the campus in order to demonstrate acceptable performance.

The Texas Education Agency looks at three domains in determining a school's accountability rating:

Student Achievement

Evaluates performance across all subjects for all students, on both general and alternate assessments, College, Career, and Military Readiness (CCMR) indicators, and graduation rates.

School Progress

Measures district and campus outcomes in two areas: the number of students that grew at least one year academically (or are on track) as measured by STAAR results and the achievement of all students relative to districts or campuses with similar economically disadvantaged percentages.

Closing The Gaps

Uses disaggregated data to demonstrate differentials among racial/ethnic groups, socioeconomic backgrounds and other factors.
