**2019**

[oldrepublictitle.com/Houston](http://oldrepublictitle.com/Houston)

**DISTRICTS AND CAMPUSES RECEIVE AN OVERALL RATING, AS WELL AS A RATING FOR EACH DOMAIN.**

- **A, B, C, or D:** Assigned for overall performance and for performance in each domain to districts and campuses (including those evaluated under alternative education accountability [AEA]) that meet the performance target for the letter grade
- **F:** Assigned for overall performance and for performance in each domain to districts and campuses (including AEA) that do not meet the performance target to earn at least a D.
- **Not Rated:** Assigned to districts that—under certain, specific circumstances—do not receive a rating.

*NOTE: Single-campus districts must meet the performance targets required for the campus in order to demonstrate acceptable performance.*

**The Texas Education Agency looks at three domains in determining a school's accountability rating:**

**Student Achievement**

Evaluates performance across all subjects for all students, on both general and alternate assessments, College, Career, and Military Readiness (CCMR) indicators, and graduation rates.

**School Progress**

Measures district and campus outcomes in two areas: the number of students that grew at least one year academically (or are on track) as measured by STAAR results and the achievement of all students relative to districts or campuses with similar economically disadvantaged percentages.

**Closing The Gaps**

Uses disaggregated data to demonstrate differentials among racial/ethnic groups, socioeconomic backgrounds and other factors.

**DISTINCTION DESIGNATIONS**

Districts and campuses that receive an accountability rating of **A, B, C, or D** are eligible to earn distinction designations. Distinction designations are awarded for achievement in several areas and are based on performance relative to a group of campuses of similar type, size, grade span, and student demographics.

<b>Read/ELA</b>	Academic Achievement in English Language Arts/Reading ( <i>campus only</i> )
